

LAUNCHING THE HVAC MAESTRO CD ROM ON PCS NOT SET UP TO AUTORUN

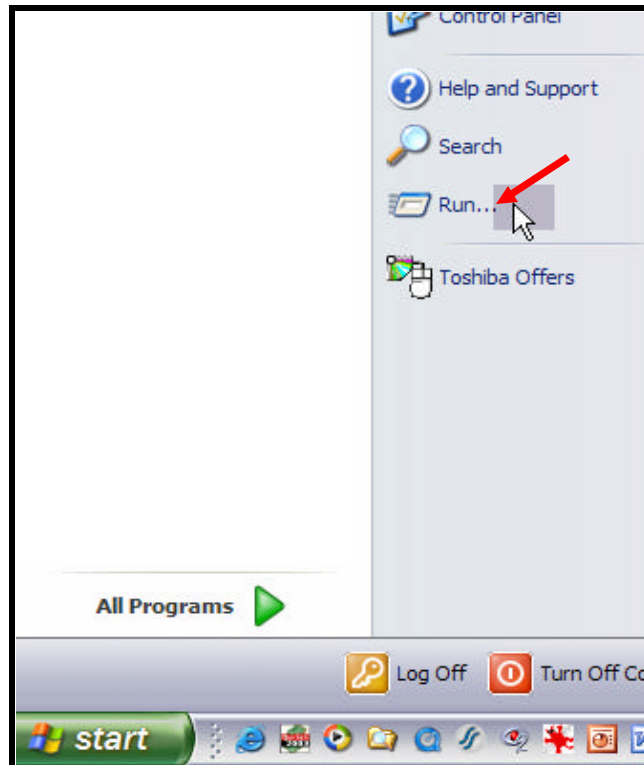

This tutorial is designed to allow you to be able to browse to the HVAC MAESTRO CD ROM if your computer is not set up to start autorun CDs automatically.

1) Insert the HVAC MAESTRO CD ROM in your CD ROM drive.

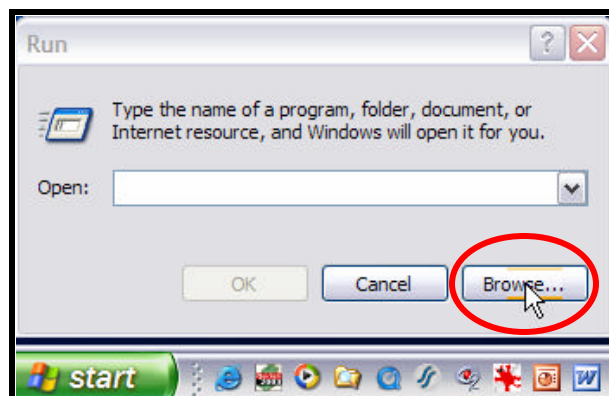

2) Click the Windows Start button.

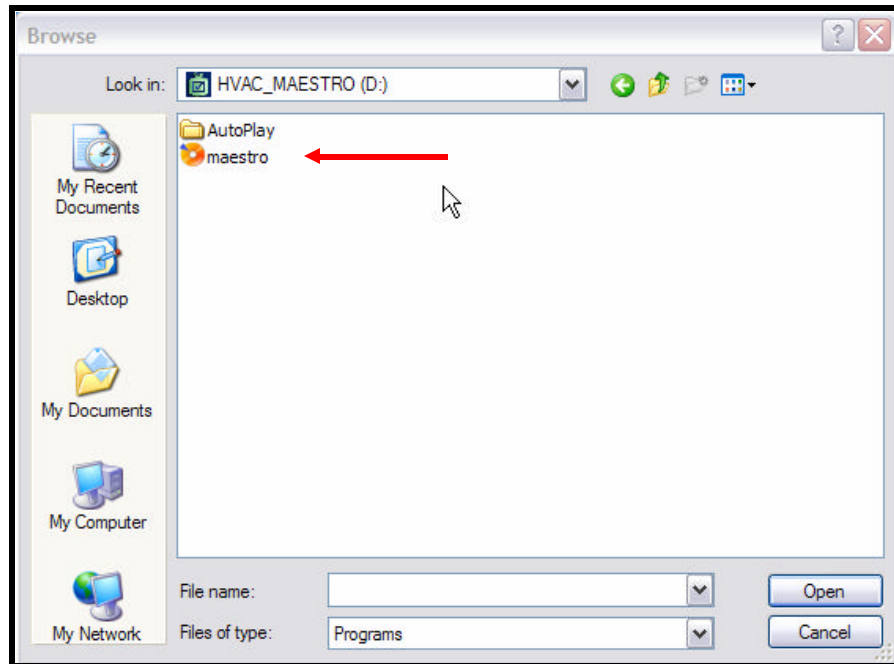

3) A menu similar to this one appears. Click on the icon entitled "Run..."

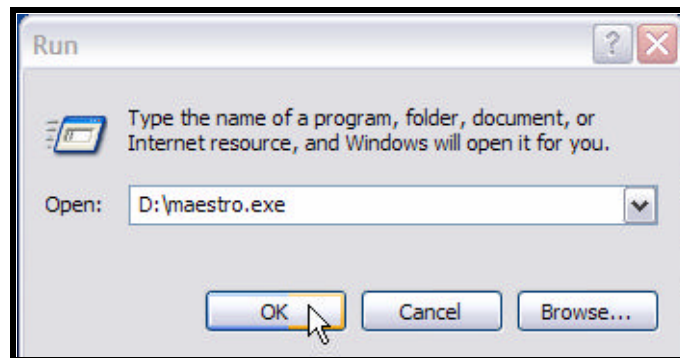

4) The following dialog box appears. Click on "Browse..."

- 5) Click the down arrow and select your CD ROM drive from the list. The HVAC MAESTRO listing will be shown followed by your CD ROM drive letter.

- 6) Select “maestro” and click Open. The following dialog will then appear in the “Run” box. Click OK.

- 7) The HVAC MAESTRO CD ROM will then launch.
